

# Ascension Clinical Transport Treatment transitions simplified.

Ensuring safe and timely arrival to treatment.

Clinical transport ensures treatment begins successfully.

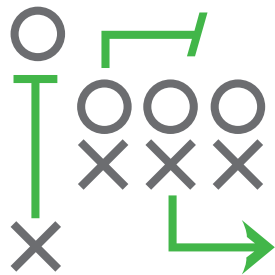

Trained addiction professionals help to ensure your loved one's safety.

Family can focus on their own needs and will receive updates from our team during transportation.

ARS professionals coordinate with treatment centers and arrange all travel details.

Ascension staff pick up your loved one and travel with them to their treatment destination.

Are you experiencing challenges getting your loved one to commit to treatment? Ask about Ascension's loving, family interventions.

**Ascension's clinical transport services provide peace of mind while your loved one travels with a trained addiction specialist to treatment.**
